

Our vision is to change the way the world thinks about skin health.

For over 35 years, Galderma has been partnering with healthcare professionals and academia across the globe to find new solutions to skin issues and deliver safe and efficient quality treatments to meet the skin health needs of people throughout their lifetime.

Today, dermatology is receiving a growing amount of recognition and attention. As we are living longer, caring for our skin as we age is also becoming increasingly important. Galderma is spearheading this change in the world's outlook on skin health.

As a focused dermatology company right from the start, Galderma is committed to the healthcare community, providing education and training programs as well as ongoing support to healthcare professionals throughout their career, to enable them to remain at the forefront of their field.

Galderma is now present in over 100 countries with an extensive product portfolio to treat a range of dermatological conditions including acne, rosacea, nail mycosis, psoriasis & steroid-responsive dermatoses, pigmentary disorders, skin cancer and medical solutions for skin senescence.
