

24<sup>TH</sup> WORLD CONGRESS  
OF DERMATOLOGY  
MILAN 2019

## **LIDIJA KANDOLF SEKULOVIĆ**

is Deputy Head of the Department of Dermatology, Military Medical Academy, and Serbian Melanoma Group secretary, an interdisciplinary group responsible for publication of melanoma diagnosis and treatment guidelines in 2014, and implementation of web-based clinical melanoma patient registry in Serbia. Also, she is a national coordinator of Euromelanoma campaign in Serbia. She is a Board member of European Association for Dermatologic Oncology (EADO), Serbian association of Dermatology and Venerology, and active member of EORTC Melanoma group, EADV and International Dermoscopy Society.

She was born in Belgrade, graduated in 1996, finished specialization in dermatovenerology in 1999, postgraduate studies in immunology in 2001, PhD in dermatologic oncology in 2007 and subspecialization in oncology in 2013. She has published 2 textbooks, 15 book chapters, several peer-reviewed articles, and is an invited presenter of several regional and international meetings. Current research is focused on gene alterations in skin cancer. Also, since 2015 as a coordinator of the EADO project „Access to innovative medicines for metastatic melanoma“ she conducted an European survey on access to first-line recommended treatments for metastatic melanoma, and revealed large disparities within Europe. From May 2017, she is a coordinator on newly established EADO Task Force for innovation in skin cancer care.
